## CUBAN LEGISLATORS

### DIVIDED OVER NEW TREATY

Proposed Commerce and Navigation Treaty May Not Be Ratified.

Havana, Oct. 6.—Owing to the development of strong opposition to the ten year treaty of commerce and navigation between Cuba and Great Britain the ratification of which is pending in the Senate the committee on foreign relations authorized the publication in the Government organ of the text treaty. Some of the senators are strongly in favor of ratifying the treaty as a means of showing Cuban independence of the United States, but it is believed that the strong opposition of President Roosevelt combined with that of the Spanish commercial element will prevent ratification.

**GOVERNMENT STEAMER ASHORE**  
Victoria, B.C., Oct. 6.—The Canadian Government steamer Quadra, which left for the west coast of Vancouver Island to locate a site for a new light house near Kysquoot near ashore at Rosedale reef near Race rocks, but was later pulled off with a certain amount of damage.

**THE CREES RETURN.**  
Winnipeg, Oct. 4.—Three hundred renegade Cree Indians, headed by Chief Little Bear, who have been living in Montana since the Reil rebellion, have been forced by starvation to open up correspondence with the Dominion Government with the object of coming back. They were told that they were at liberty to return, and are now on their way to Onion Lake to await the Department's further instructions.

## WELL ARRANGED OFFICE BUILDING

McDonough & Secord's new building next to their store, is rapidly nearing completion. The ground floor will be fitted in oak with regular bank fittings. Private offices of Mr. McDonough and Mr. Secord will be one on each side of entrance, the rear being used as a general office. On the second floor will be rooms with closets and lavatory. The employees of the firm are assured of the most comfortable quarters. The top floor will be entirely used for storing furs. The building will be steam heated and have electric light and water works connection. There are several doors into the offices from the present store, giving easy access for the conduct of business and for the employees.

Where the offices are now situated an electric elevator will be installed and the entire building will be used as a store, the elevator making shopping on the second or top flat as easy as on the ground floor. This will give more room for stock and display and will be a material advantage to the firm.

## TELFORD A WINNER

Attorney General Cross addressed a meeting in Leduc last evening in the interests of Mr. R. T. Telford, Liberal candidate in that constituency. The meeting was well attended, and a number of ladies were present. The audience listened attentively to the discussion of public affairs. Mr. Telford opened the meeting with a discussion of the financial terms and the local chances of the autonomy bill. Mr. Cross discussed the several planks of the Liberal platform, with special reference to the policy on the school question. Mr. Telford is making a vigorous fight in Leduc and his cause is gaining ground rapidly. Mr. Peter Telford, M.P., has addressed several meetings in the constituency and reports from all parts of the riding indicate Mr. Telford's election by a handsome majority.

## PUBLIC HOSPITAL BALL

Annual Ball in Aid of Edmonton Public Hospital held last evening.

The ball given by the Ladies' Aid of the Public Hospital in the Thistle rink last evening was a most enjoyable affair. About one hundred and fifty couples were present. The music supplied by Clark's orchestra was a pleasure and delight to the dancers, many of them dancing through the twenty numbers, the three extras and three more extra extras. The floor was in splendid condition and the company large enough to ensure a most enjoyable evening.

Supper was served on the stage, where twelve tables, seating eight persons were laid. The tables were prettily decorated with green foliage, while candles gave forth a soft dim light that was very enchanting. The ball was a thoroughly enjoyable affair and the ladies were congratulated on every side for their executive ability, and artistic taste.

## NEW EMPIRE BLOCK

Magnificent Store and Office Block Being Rushed to Completion

A visit to the Empire block reveals a scene of great activity. On the fourth floor are at present some of government departments, but when the two floors below are completed they will be moved down stairs and the top flat used as a storehouse for McIntosh and Campbell's furniture.

The second and third floors are divided into suites of offices, ceilings high and rooms large. The suites will be very complete and the Government departments will be splendidly housed until permanent quarters are provided. The vault extends from the ground floor up and on each flat is divided into two rooms providing splendid accommodation for the safe keeping of documents, lavatories, cloak rooms and all conveniences are provided on each floor for the employees. Fire proof windows are placed on the east side of the building and everywhere are evidences of care for the safety and comfort of the occupants. The Bank of Nova Scotia will occupy the ground floor on the corner and to the right of the main entrance McIntosh and Campbell will have a splendid store for their furniture stock.

In the basement a 70 horsepower boiler will provide steam for heating the building while cool bins have been excavated under the sidewalk on First street. The building which is nearing completion will be one of the finest business buildings between Winnipeg and the coast and reflects great credit on the enterprise of the owners Messrs. McDonough and Secord.

Tickets for the cricket cup dinner to be held at the Pendennis tomorrow evening, can be obtained from E. Slocock, secretary. The dinner begins at 7.30.

## NEW MACLEOD LINE

**Town Will Bear Expense of a Short Line to Temporarily Facilitate Matters**

(Macleod Advance)  
On Sunday last Messrs. Shauzheny, Whyte and other officers of the C.P.R. arrived at Macleod in connection with the building of the line into the town. They were met at Haneyville by a number of the members of the town council and citizens. The company wished to delay the bringing into town of the railroad pending the building of the proposed high-level bridge at Lettbridge and the change in the route of the line between Macleod and Lettbridge.

If this change is made, it is understood that the present location of the line east of the town would be abandoned and therefore the town has undertaken to bear the expense of the short track from the proposed new depot at the corner of Second avenue and Fifteenth street, easterly to its junction with the present line, if by the abandonment of that line the new track becomes useless.

This is exceedingly satisfactory to all the townspeople and we have no doubt that the necessary authority will be gladly granted by the ratepayers for the carrying out of this agreement and the expenditure of the money necessary when the town is called upon to pay on the fulfilment of the conditions of the agreement.

It is clear that the C.P.R. is waking up to the fact that their monopoly of the west is in danger of extinction, for who can doubt that it is the persistent endeavours of competing railroads to get a foothold in this country that has made the C.P.R. get a "narrow one." In other words Jim Hill has got them going some. It is reported that at the conference on Saturday, Mr. Whyte went out of his way to make a few remarks for the purpose of satisfying those present that there was no necessity for the Great Northern to come into this country. It is commonly reported that the Great Northern is anxious to get hold of the Macleod, Cardston and Montana railway charter, and there is no doubt whatever that an attempt will soon be made by that company to get into Alberta. The great opposition it will meet with will be that of the C.P.R. With the Liberals in power competing railroads will be encouraged, with the Conservatives controlling the issue of railway charters, and Mr. Bennett the chief solicitor of C.P.R. as prime minister, Alberta will have small hope of release from the extortionate grasp of the octopus.

## POLITICAL

A. Champagne has been chosen Liberal candidate for Battleford constituency.

R. B. Bennett, Conservative leader, is advertised to address a meeting in Robertson's hall on Monday evening next.

Rocky Mountain Echo: Mr. Chas. Keates' entrance, as an Independent, introduces a new complication. There are now four candidates in the field for the Pincher Creek District. Both political parties are out, a labor nominee also, and now an Independent Conservative. And they are all dogmatically men.

Mr. S. McCarthy, M.P. for Calgary, was among the arrivals in Winnipeg Saturday. When seen by a reporter Mr. McCarthy said that he had no statement to make with regard to Dominion politics. In Alberta great interest was being taken in the approaching elections. There would be no dearth of candidates. The battle in Alberta would be fought on straight party lines.

**LIBERAL NOMINATED**  
Saskatoon, Oct. 4.—The Liberal convention nominated W. C. Sutherland, barrister.

**TO OPPOSE SCOTT**  
Lumsdale, Oct. 4.—The Conservative convention this afternoon nominated P. C. Tait unanimously to oppose Premier Scott.

**THE HERALD AGAIN**  
(Calgary Herald)  
—Regina, Oct. 4.—An important Liberal caucus was held in this city Monday. Hon. Frank Oliver, Lieut-Gov. of the province, and all the Saskatchewan provincial ministers were here. The date of the elections was discussed and a decision reached at a second meeting held in the evening, but no date has yet leaked out, although current rumor has settled upon Nov. 15. There were also present in the city many heads of the Roman Catholic church in Canada. Archbishop Hurton and Rev. Canon Martin, of Montreal, being among the number. A great deal of political significance may be attached to these two caucuses.

**G. M. T. P. SURVEYS**  
J. Armstrong, district engineer of the G.T.P., left the city last week to go over the proposed line as far as Saskatoon. He was accompanied by Mr. Brumwell who takes charge of a party working about one hundred miles east of Edmonton. Mitchell's party is about ninety miles east of the city. Both these parties are working toward Edmonton and Mitchell's party are expected to arrive here early in November.

Contract Awarded for New Curling Rink—Items of General Interest.

Strathcona, October 6th.—The contract for the erection of the new curling rink, was awarded Messrs. Burgher & Beaton for the sum of \$1800. The contractors purpose commencing the work early next week.

Wm. M. Real of Wick, Ont., is visiting his niece Mrs. Wallace Thomas. T. C. Osborne, of Cooking Lake, was brought in last evening suffering from a poisoned foot. He is now under the care of Dr. Colquhoun.

B. J. Saunders, C.E. of Edmonton was in town yesterday busily engaged surveying into town lots, block 48, lying south of the corner of Nillock street and Anderson avenue.

Mrs. Simpson Hayes, an authoress of more than local celebrity, was in town Wednesday. Our worthy mayor had the honor of escorting her and Mrs. Malone about the town, the party driving fully thirty miles in the course of the day. Mrs. Hayes is also an artist and took many snapshots of interesting views.

R. McKernan, proprietor of the Dominion hotel here, who owns a 320-acre farm about 1 1/2 miles from town has been for the past four or five days busily engaged threshing. Mr. Stewart and staff, of Rabbit Hill are doing the work. He reports a yield of from 9000 to 10,000 chiefly oats.

Mr. Holbrook, of Togo, Washington, has leased Mrs. Cameron's 320-acre farm, about four miles from town, for a term of three years. Mr. Holbrook is a practical farmer and rancher. He is an Ontario man but has been several years in Australia, and purposes moving his wife, family, stock, etc., here about November 1. In conversation with a citizen, he said he was of the opinion that many of his old neighbors in the U. S. would in the near future come to "Sunny Alberta."

#### LOCAL

A stranger named Taugher died at the general hospital yesterday of typhoid fever. He was buried this morning.

Several big deals in real estate were put through yesterday. The property where the Bank of Nova Scotia stands being among the number. The price was the highest yet reached for city property.

#### BUSINESS CHANGES

The firm of Potter and MacDougall have purchased the building at present occupied by the Bellamy Investment Co., at the corner of Jasper and McDougall street and secured a lease of the ground. The Bellamy Co. have purchased the old Baptist church on Howard street and are erecting an addition to it. The company will remove their implement stock to the new stand in the near future.

#### WESTERN AFFAIRS

(Winnipeg Free Press)

Hon. F. Oliver is in the city today. Asked regarding conditions in the new western provinces, the minister was most optimistic. "The provinces of Alberta and Saskatchewan certainly began their new life under most auspicious circumstances," he said. "The season was a most prosperous one, and the west was in the midst of the most rapid forward movement it has ever experienced. The entire country was enjoying a wave of increased business in which every citizen of the west shared. The constitution of the two new provinces, drawn up with extreme care by the Dominion Government, was accepted by the people of the west as a most wise, satisfactory and generous adjustment of the various different matters which must be dealt with in the administration of the country. During my trip through the provinces, I heard nowhere anything but praise for the arrangement can be effected which will fully satisfy every individual. All that can be done is to frame legislation which

in the judgment of parliament conforms closely to justice and equity and to trust that intelligent citizens of the Dominion will see that their representatives have succeeded in doing this. The constitution of the new provinces has appealed to the moderate and intelligent men of all parties as the wisest possible arrangement under existing conditions, and I believe that the new provinces are entering on an era of great commercial prosperity and expansion. The possibilities of development, there are apparently almost unlimited.

"The sentiment throughout the entire west, from Winnipeg to Dawson, is entirely satisfactory to the Dominion Government, and it seems probable that the Liberals will be charged with the duty of administering for the first time the great provinces of Alberta and Saskatchewan." "What are the prospects for immigration next year?" inquired the reporter.

"It is impossible to say anything regarding these matters in advance," replied Mr. Oliver. "The government has its fully organized department of immigration, with agents in all portions of the world from which desirable immigrants can be secured, and every step is taken to make known advantages of Canada. The season has been singularly prosperous, the yield of wheat phenomenal, all financial investments in the west have been most successful, and it is natural to suppose that there will be guidance the future happiness and prosperity of the citizens of Alberta and Saskatchewan is assured.

"The city of Edmonton is increasing very rapidly in population, and building operations are being carried on with extraordinary rapidity. The Canadian Northern is extending its system by building two new branch lines from Edmonton one to Morinville and one to Stony Plains, on both of which work is now being done. The contract for the new Canadian Northern depot is held by Mr. Charles Sharpe, of Winnipeg, who, as I understand, has also the contract for building the piers of the new C.N. bridge across the Saskatchewan river at Fort Saskatchewan."

## REGINA OFFICIAL

Mr. John A. Reid Talks of the Alberta Capital and Governmental Affairs

(Regina Standard)

Mr. John A. Reid, clerk of the executive council of Saskatchewan, has returned from his trip to Edmonton. Mr. Reid has been for years a sort of general superintendent over four of the Territorial departments, and it was through him that the election work was generally carried out.

Questioned by the Standard representative as to the result of his trip, Mr. Reid denied that it had anything to do with the elections of the province. "I was just sent out there for a week to give the boys from Regina a hand," he said. "They are new at the business, and as I was head of four of the departments here, my experience was considered valuable enough to demand my presence in Edmonton."

"I found the staff getting along fairly well, except for the matter of quarters. They occupy no less than six different buildings spread all over the city. In that way they are hampered to a certain extent, as much of the work of the Government must necessarily be work of all departments in common."

"The new building being erected for the staff, however, an excellent place. It is called the 'Empire Block' and is being erected by Mr. Seard, the late member of the Legislative Assembly of the Territories. When the staff gets in there they will want for nothing."

"What do you think are the prospects for an early appeal to the people in Alberta?" he asked.

"Well," replied Mr. Reid, "the members of the Government of Alberta appear to be very busy with getting the staff in order, and they appear to be paying little attention to elections just at present. Of course there are a great many details to be arranged in connection with the holding of an election, and that work may be progressing. Apart from my own observation, I cannot say that I know anything about the elections either in Alberta or Saskatchewan."

"Has the staff at Edmonton been increased as yet, or is the work being carried on by those who went from Regina, Mr. Reid?"

"By the Regina staff entirely. As yet there have been no hands taken on, but of course that will come very shortly. The people of Edmonton seem to take the Regina staff well, and apparently those who went west from here like their new location. Beyond general topics, and the progress of getting departments in order, nothing could be learned from Mr. Reid, and he was positive in his denial that his trip to Edmonton had anything to do with the coming elections."

## HON FRANK OLIVER

Spent Monday in Regina—Declined to Talk for the Standard

(Regina Standard)

Hon. Frank Oliver, Minister of the Interior for the Dominion of Canada, and editor and proprietor of the Edmonton Bulletin, spent the day in town yesterday, and was a caller at The Standard office, where he carefully inspected all the new machinery and labor saving devices of the establishment.

Mr. Oliver was on his way east to Ottawa, and came to Regina direct from Edmonton. He has recently returned from a trip through the Yukon, and is greatly impressed with the resources and prospects of that portion of the vast area over which he has supervision.

Mr. Oliver would say little for publication, stating that he had dropped in for a friendly call rather than to be interviewed. He would say, however, that Canadians were not realizing properly the great assets which they have in the Yukon Territory.

He pointed out that some 5000 miners in that district had last year produced \$7,000,000 worth of gold. The gold is there, declared the minister, and all it needs is the taking out. Gold is in sight everywhere in the Yukon. They use it around in panfuls.

"It is very noticeable too," remarked Mr. Oliver, "that the Canadians are rather slow to take advantage of the trade of the Yukon. There are a great many more business houses in Seattle doing business with Dawson City, than there are in Vancouver, and consequently there are many more stores coming from the American City. This is a great field for commerce, if the Canadians would only take advantage of it."

Mr. Oliver is one of the few Canadian politicians who have endured the hardships and privations of pioneer life. He went to Edmonton many years ago from Winnipeg, travelling over the prairies in a "Red River

Mr. Oliver was a member of the Territorial Legislative Assembly for many years, and has only been sitting in the Dominion Parliament for nine years. Still his success there has been in keeping with his other successes. He is a typical Westerner in every respect, and is therefore the better qualified for the important position which he holds in the Government.

## WILL TRAVERSE A GOOD COUNTRY

Hill's, Sask., Sept. 29.—The grading in connection with the Grand Trunk Pacific road has been begun north of here a few miles and the contractors say that the work will be pushed with all possible speed. A few weeks to the value of the country through which the road passes west of this point, which is in township 20, range 6, west of the second meridian, may be interesting. The line passes through township 22, range 4, west of the second meridian, and then takes a northwesterly direction toward Touchwood hills. It thus gives railway facilities to a large section of country lying north of the Pheasant Hills branch of the Canadian Pacific. The writer has just been over a good many miles of the selected route, and it is undeniable, in his opinion, that the section of country along the line between it and the Canadian Northern is one of the best in the whole of the North West. The Government lands in the district are almost wholly occupied and the settlers are prosperous. A part of the territory has been settled for some time, and the settlers are among the most satisfied in the territories. The harvests have been excellent, this year's harvest of course being the greatest of them all. The district is a wheat raising one, and probably one of the best in the whole country. The soil is mostly clay loam with clay subsoil, the very best wheat land that can be got. The surface of the country is from gently undulating to rolling prairie, with occasional bluffs and sloughs, and beautiful lakes.

In this country frosts should never give any trouble. The settlers' records show that they have plenty of rain, and vegetables grow to an enormous size and mature well. The wheat this year is an excellent sample and will be in estimated, grade high. There are many places where it will average forty bushels to the acre, and with the power to produce such crops one can readily understand the anxiety of the settlers for the next railway. Then there is the bluffs, plenty of fire wood for domestic use and at all the points observed splendid pure drinking water can be secured by sinking from four to twelve feet. Alkali seems to be almost entirely absent from this part of the country and only here and there are there to be found spots of light or gravelly soil, or land that is very scrubby. There is beginning a rush of land hunters and land values are rapidly rising, though they are far below what they will no doubt bring the moment the line is ready to begin business or is even graded through the district. One meets on every trail land men looking for desirable purchases. The homesteads as stated are almost wholly taken up and the C.P.R. owns but comparatively little land along the line just west of this point.

The people who have lived for some years in this country have no inclination to sell. They say they are perfectly satisfied. An interesting thing is to find splendid Indian corn growing at different points, and those who have been raising it say that it matures capitally.

A representative of one of the eastern land companies was through to Touchwood hills last week and his report is that the country is without doubt a splendid one. He showed his faith by selecting a good many thousand acres for his company, and another private investor told your correspondent that his only fear was that too many would get wise as to the nature of the country opened up, and hence land would rise too rapidly in value. The location of stations can, of course, only be divined from the purchases made by the representatives of the company. These are about five to six miles apart, so that the company evidently propose to give every local convenience they can. A homesteader from Iowa purchased a section the other day seven miles from the located line, and paid for it \$9.75 per acre. He said he was perfectly satisfied that in less than five years it would be worth \$25 and that seems to be the opinion of those who are hustling to get a piece of the soil. The Canadian Pacific are reported to have withdrawn a township or two entirely from the market. This, however, the writer has not had the means of confirming. Hudson's Bay lots are being picked up, it is said, at pretty high prices.

—A team of horses attached to a farmer's wagon created quite a furor on Jasper avenue last evening about 6:30. They started to run away about the corner of McDougall street, and when they got to the corner of First street the driver made up his mind it was a time for strenuous deeds and dropped off the rear of the wagon. He rolled over unhurt, and the team, when they got to the corner opposite Revillon's, differed in opinion as to which way they would go. As a consequence, they charged straight at Clutton's butcher shop, and never stopped until the tongue of the wagon was two feet through the wall, the horses being wedged in between the building and the wagon. Aside from a broken neckyoke, no damage was done to the team, but the butcher shop has a blemish.

## BANDITS HELD UP AN EXPRESS

Seattle, Oct. 4.—The Great Northern eastbound passenger train, which left here at 8:30 o'clock last night, was held up half an hour later by masked men. The robbery, which was one of the boldest ever carried out in the West, occurred five miles out of Ballard, a suburb just north of Seattle.

The bandits held the train for an hour and twenty minutes, during which there was enough dynamiting and sniping to supply a Wild West show.

The contents of the express safe, variously estimated at between \$5,000 and \$20,000, was taken by the robbers.

The Great Northern Express Company has offered \$5,000 for the arrest and identification of the train robbers. In addition it will pay \$500 for each conviction secured. The robbers are known to have secured \$346.

When the news of the holdup reached Seattle, Great Northern officials hurriedly made up a special train and left for the scene. By this time the robbers had escaped with their booty.

Two youths, named Frank Alberts and Roland Gibbs, aged twenty-four and seventeen respectively were arrested, but it is probable that they had nothing to do with the planning of the robbery.

Ten minutes out of Ballard, where the train was running upgrade, the engineer caught sight of a red lantern being waved just ahead. As the train slowed up two men wearing raincoats and slouch hats climbed over the fence and presented a revolver at the engineer's head.

After commanding the engineer and fireman not to make any outcry, the robbers left the locomotive with them and went to the baggage car, calling upon the messenger to open the door. The messenger refused, and a heavy charge of dynamite was placed against the door and exploded. The car was wrecked. The safe was quickly dynamited, after which the rest of the train was allowed to proceed.

Conductor Grant's report of the hold-up shows that at least seven men were engaged in the robbery. He believes there were other men farther down the track, but they did not take any part, possibly because the train had stopped too soon.

One inside the car, the robbers began dynamiting, the first explosion being of six sticks, the second of twelve and the third of eighteen.

While the robbers were engaged on the safe, two youths, Alberts and Gibbs, who had been riding on the blind baggage, stopped off and went through the train attempting to hold up the passengers. They had no guns, but took advantage of the timidity of the passengers while the shooting was going on outside. The boys are now in jail at Everett.
